5. ORGANIZATION CHART

Heads of Academic Units

ORGANIZATION CHART [College of Engineering & Technology]

6. INSTITUTIONAL GOVERNANCE

An agile and flexible governance mechanism enables SRM IST Tiruchirappalli to continue moving progressively towards its academic, research, and development goals. Institution-level governance is guided by encompassing principles that induce autonomy, openness, and strategic direction.

1. Autonomy and Governance

Each school and administrative unit is encouraged to establish its own strategic objectives in consultation with the Chairman's office. The strategies are established through Deans, Heads of Schools, and Administrative Directors and supplemented with specific targets and boundary conditions. These are used as the basis of regular review of performance and adjustment, ensuring that institutional objectives are met without compromising on autonomy.

2. Synergy Between Academia and Administration

Administrative and academic streams are treated separately to meet the unique functional and career requirements of each. Shared service centers such as HR, finance, estate and facilities management, IT services, and international affairs offer their services to all faculties uniformly. This is done to ensure operational efficiency while allowing academic departments to focus on teaching and research.

3. Transparency and Accountability

The organization promotes openness at both external and internal levels. To external stakeholders, the organization releases yearly academic reports, research publications, and institutional reviews. Internally, tools such as 360-degree feedback systems, student feedback, and official appraisals promote a culture of accountability. Yearly performance objectives are set and reviewed to establish a continuous process of improvement and accountability by all functions.

4. External Advisory

The institution is strengthened by external guidance from academics and business experts through membership in statutory bodies like the Board of Management, Academic Council, and Board of Studies. Their guidance guarantees that the academic courses conform to industry needs and international best practices, and the research and curriculum are related and creative.

5. Faculty Input

Members of faculty are engaged with the governing bodies within the center, such as participation in Academic Council, Board of Studies, and Internal Quality Assurance Cell (IQAC). The faculty representation is ensured in all academic and curricular issues as per UGC norms. Faculty contributions also influence departmental planning and strategic direction.

6. Board of Management

The Board of Management is the highest decision-making body of the institution. They are charged with establishing departments, determining academic policy, coming up with faculty positions, approving the conferral of degrees, managing institutional resources, and facilitating financial and administrative operations. It has the authority to appoint agents or representatives for institutional purposes whenever necessary.

7. Academic Council

Academic Council is the chief academic organ of SRM IST Tiruchirappalli. It oversees teaching standards, syllabi sanctions, research coordination, and examination systems. It promotes academic excellence by formulating and enforcing standards for all academic activities and recommending alterations from time to time based on regular reviews and emerging trends.

8. *Research Advisory Committee*

This committee guides the research vision of the institution through the review of faculty and student research activities, innovation projects, and intellectual property management. The committee formulates research budgets, promotes inter-disciplinary research, and ensures that all research activities are aligned with the academic strategy and ethical practices of the institution. The committee provides recommendations for approval by the Finance Committee and the Board of Management.

9. *Planning and Monitoring Board*

Being the main planning body, the Planning and Monitoring Board is tasked with evaluating all institutional development projects. It monitors implementation of projects, institution building, and conformity with strategic targets. The board provides recommendations to the Board of Management and the Academic Council regarding matters critical for institutional growth.

10. *Finance Committee*

All budgetary approvals and financial planning are under the control of the Finance Committee. It scrutinizes the annual accounts, suggests budgetary allocations, and ensures financial discipline in academic and administrative sections. It plays an important role in resource mobilization, monitoring use of funds, and aligning expenditures with strategic priorities.

9. INTERNAL QUALITY ASSURANCE CELL (IQAC)

In pursuance of the National Action Plan of the National Assessment and Accreditation Council (NAAC), Bangalore, for performance evaluation, assessment and accreditation and quality up-gradation of Institutions of higher education, there is a stipulation that every accredited institution should establish an Internal Quality Assurance Cell (IQAC) as a post-accreditation quality sustenance measure. Since quality enhancement is a continuous process,

SRM INSTITUTE OF SCIENCE AND TECHNOLOGY TIRUCHIRAPPALLI
AICTE MANDATORY DISCLOSURE

the IQAC will become a part of an institution's system and work toward realizing the goals of quality enhancement and sustenance. The prime task of the IQAC is to develop a system for conscious, consistent and catalytic improvement in the performance of Institutions. The IQAC will make a significant and meaningful contribution in the post-accreditation phase of Institutions. During the post-accreditation period, the IQAC will channelize the efforts and measures of an institution towards academic excellence.

Strategies

IQAC shall evolve mechanisms and procedures for

- Ensuring timely, efficient and progressive performance of academic, administrative and financial tasks;
- Maintaining and upgrading the relevance and quality of academic and research programs;
- Equitable and affordable access of academic programs to various sections of society;
- Optimizing and integrating modern methods of teaching and learning;
- Establishing the credibility of evaluation procedures;
- Ensuring the adequacy, maintenance and functioning of the support structure and services and
- Sharing research and networking with other Institutions in India and abroad.

Functions

Some of the functions expected of the IQAC are:

- Development and application of quality benchmarks / parameters for various academic and administrative activities of an Institution;
- Dissemination of information on various quality parameters of higher education;
- Organizing of workshops and seminars on quality related themes and promotion of quality circles;
- Documentation of the various programs / activities leading to quality improvement;
- Acting as a nodal agency of the Institution for quality-related activities; and
- Preparation of the Annual Quality Assurance Report (AQAR) to be submitted to NAAC based on the quality parameters.

Benefits

IQAC will facilitate:

- A heightened level of clarity and focus in institutional functioning towards quality enhancement and facilitate internalization of the quality culture;
- The enhancement and integration among the various activities of the Institution and institutionalize good practices;
- A sound basis for decision making to improve institutional functioning;
- A positive change in the Institution; and better internal communication.

Recent contributions by IQAC to the College of Engineering and Technology

- NAAC IV Cycle Accreditation (Awarded the highest A++)
- QS- IGAUGE Diamond rating
- ARIIA Ranking
- AICTE awards
- Quality enhancement through regular IQAC meetings
- Development of regulations and curriculum
- Participation in surveys conducted by media
- Preparation of reports for submission to UGC/MHRD/AIU
- Participation in NIRF(MHRD)/QS/Times Higher Education ranking surveys
- Advisory role in enhancing research publications, patents, faculty recruitment
- Preparation of annual MHRD-AISHE report
- Preparation of University annual report
- QS-Rating Process resulting in 4-star status for SRMIST
- Participation in Swachh Bharat Ranking Process
- Advisory role in internal promotion

17. CRITERIA AND WEIGHTAGES FOR ADMISSION

For majority of the programs, admission is done through National level entrance examination conducted by SRM Institute of Science and Technology (formerly known as SRM University) or authorized /statutory boards or agencies. For some programs, admission is done directly. In addition to the above, the eligibility for admission is subject to fulfilling the requirement of minimum marks in the qualifying examination as well.

SRM INSTITUTE OF SCIENCE AND TECHNOLOGY TIRUCHIRAPPALLI
AICTE MANDATORY DISCLOSURE

Any Candidate qualified in IIT JEE Main/SAT will be admitted directly even if the candidate doesn't take SRMJEEE.

Entrance Based Programs		
Admission is done through Entrance examination, subject to fulfilling the requirement of minimum marks in the qualifying examination as well.		
Faculty	Program	Name of the Entrance Examination
Engineering & Technology	B.Tech Programs	SRMJEEE (UG)

Eligibility

UNDERGRADUATE COURSES (DURATION 4 YEARS)

QUALIFYING EXAMINATION

Applicant should have passed in Higher secondary examination (10, +2 pattern) or appearing in Higher Secondary examination in the current academic year with a minimum of 60% aggregate (3 subjects) in Physics (mandatory) , Mathematics (mandatory) and at least one of Chemistry / Biotechnology / Biology / Computer Science / Information Technology / Informatics Practices / Engineering Graphics / Botany and (or) Zoology as major subjects in regular subjects in regular stream from any board within India , CBSE , ISCE , Matriculation , IB or NIOS

NOTE:

For B.Tech Programs offered by the Department of Biotechnology, and Department of Biomedical Engineering – Minimum 60% aggregate in PCM/PMB/PCB/PCB or Z (Botany or Zoology). Students who have not studied Mathematics as one of the major subjects in +2 must undertake an additional 4 credit courses in Mathematics during the First Year of B.Tech. Students who have completed +2 under NIOS must have completed the 10th standard from regular schooling or vice-versa. Students who have not studied Chemistry should undergo a bridge course in Chemistry in the first year.
